

An expertly designed, stylish and highly functional serving station primarily designed to compliment our market leading Le Capri range of machines, this powder coated metal unit is inherently water resistant and is a striking addition to our product range.

**Standard Features Include:**

- Strong steel construction with no MFC or MDF components to suffer water damage
- High impact solid state illuminated header and menu boards
- Three station cup dispenser pod
- Three station condiment/lid dispenser pod
- Lockable, high capacity storage cupboard with shelf
- Compatible with all coin operated variants and our entire instant machine range too
- Generic or Douwe Egberts graphics

**Optional Features Include:**

- Turntable and hinged condiment pod to facilitate 'in-situ' maintenance and servicing
- Neon effect, colour co-ordinating pod lighting
- High capacity internal waste bin with stainless steel flap and chute system
- Bespoke powder coat colour finishes and customised graphics also available (prices on application)
